Education

Indian Institute of Technology, Ropar

2023 – 2027

Bachelor of Technology in Chemical Engineering — CGPA: 7.91/10

Rupnagar, Punjab

Relevant Coursework

- Data Structures & Algorithms
- Financial Risk Management
- Calculus
- Economics
- Foundations of NLP and LLM
- Linear Algebra
- Differential Equations

Experience

Bluestock Fintech

Jun 2026 – Aug 2026

Data Analyst Intern | *Python, Pandas, Streamlit, FastAPI*

Remote

- Built a financial intelligence platform covering 92 NIFTY 100 companies across 14 years of data.
- Engineered 50+ financial KPIs with automated validation, edge-case handling, and trend analysis.
- Developed 6 investment screeners with composite scoring, valuation analysis, and ranked shortlists.
- Built peer, sector, cash-flow, and clustering analytics with automated reports and insights.

Bluestock Fintech

Jun 2025 – Jul 2025

Software Developer Intern | *Node.js, Express.js, PostgreSQL, AWS S3*

Remote

- Built an IPO management platform for creating, updating, tracking, and managing IPO records.
- Implemented secure admin access with JWT authentication, OTP verification, and password recovery.
- Developed cloud-based document workflows for secure file storage, retrieval, and management.

Projects

Career Intelligence Platform | *Python, LangGraph, FastAPI, PostgreSQL*

GitHub | Jul 2026 – Present

- Built an agentic platform that analyzes job descriptions, evaluates role-fit, and tailors resumes and cover letters.
- Engineered an OA engine that identifies company-specific patterns and generates targeted DSA, SQL, and system-design practice.
- Developed an intelligent tracker that syncs recruiter emails to automate application, interview, and deadline updates.

AI Academic Co-Pilot | *Python, LangChain, Groq LLM, RAG, FAISS*

GitHub | Apr 2026 – Present

- Built an AI-powered academic co-pilot for personalized learning, research assistance, and exam preparation.
- Designed adaptive learning workflows for concept explanation, assignment guidance, quizzes, and coding practice.
- Tracked learning patterns and knowledge gaps to deliver personalized feedback and targeted improvement recommendations.

Technical Skills

Programming Languages: C++, Python, JavaScript, SQL, HTML, CSS

Agentic AI: AI Agents, Agentic AI, LLMs, LangChain, LangGraph, RAG, FAISS

Technologies & Frameworks: Node.js, Express.js, Django, Flask, Rest APIs

Databases & Cloud: MongoDB, PostgreSQL, AWS S3, SQLite

Developer Tools: Git/GitHub, Postman

Core CS Fundamentals: Data Structures and Algorithms, Operating Systems, OOPs, Computer Networks, DBMS

Positions of Responsibility

Assistant Placement Coordinator

May 2026 – Present

Career Development and Placement Cell

IIT Ropar

Advisor

May 2024 – May 2025

Dance Club

IIT Ropar

UG Mentor

May 2024 – May 2025

Institute Student Mentorship Program

IIT Ropar

Achievements

Flipkart GRiD 8.0, Selected as a National Semi-Finalist in the AI Engineering Track.

Amazon ML Summer School 2026, Selected among 3,000 participants from 130,000+ applicants.

LeetCode (Profile), Maximum rating of 1848.

Codeforces (Profile), Specialist with a maximum rating of 1496.

CodeChef (Profile), 3-Star rated with a maximum rating of 1720.

ATF Stage 2 Qualified, Ranked among the top 5% of a pool exceeding 20,000 applicants.

National Science Olympiad, Secured a Gold Medal at the school level.
